Chief, Shipbuilding Branch

25X1X6

Requirements for [REDACTED]

*Rec'd &
Juded
2 Aug.*

1. It is requested that the following requirements be served on the subject source.

a. List all shipyards known to have produced submarines or naval surface ships since 1950; the types built, general characteristics, rate of output, description of plant facilities and methods of construction.

b. Are all materials and equipment used in submarine and naval surface ship construction the product of Soviet industry? If not, give items and source of supply.

c. What knowledge does source have of exports of shipbuilding materials, equipment, machinery, pre-fabricated sections and the like, to other European Satellites or China?

d. Outline relationship between Ministry of Defense (Navy) and Ministry of Shipbuilding with respect to naval ship design and development.

e. Outline the responsibilities of the design bureaus under MSP and indicate any changes in responsibility since 1950. List all design bureaus and indicate responsibility of each.

f. Do design bureaus develop working drawings for each individual shipyard or are the working drawings developed by the engineering offices of each shipyard from preliminary plans developed by the design bureaus?

g. To what extent does the naval base at Sevastopol engage in fitting-out, trials and tests of newly constructed submarines and surface ships for the Black Sea Fleet? If this work is not done by the naval base, is it done by other shipyards in the Sevastopol area?

h. List all shipyards engaged in building vessels and all shipyards engaged in repair under the jurisdiction of the MSP and under the navy.
